

How to upload more than 25 mb Video file to jupyter notebook?

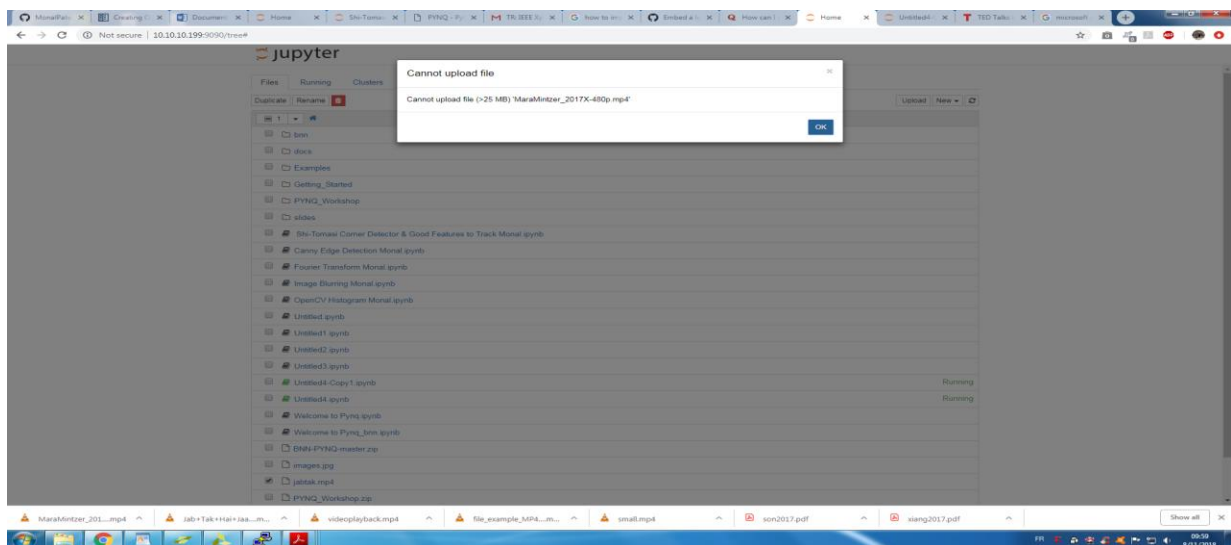

Check Jupyter version using below code

```
import notebook
```

```
print(notebook.__version__)
```

Jupyter version is older than 5.0.0 that's why not able to upload more than 25 MB file

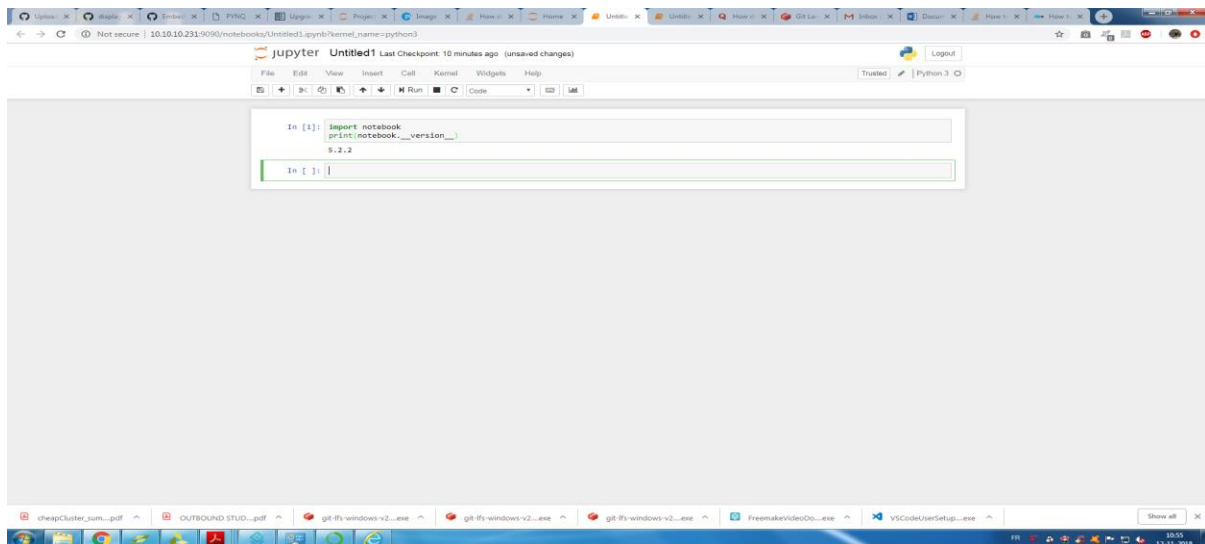

If your version is older than 5.0.0, run `pip install --upgrade notebook` to upgrade.

```
allin@pyne:~$ ssh allin
allin@10.10.10.231's password:
Welcome to PYNQ Linux, based on Ubuntu 16.04 (GNU/Linux 4.14.0-112-rt64)
# Security notifications for Ubuntu!
# We now have FIPS, RTIO, CC and a CIB Benchmark.
# - http://bit.ly/Security_Certification
# Want to make a slightly secure kernel, avoid display or touchscreen?
# Here's a step-by-step tutorial for a rainy weekend, or a startup:

allin@pyne:~$ pip install --upgrade notebook
```

Now You can check Jupyter version using below code,

```
import notebook
print(notebook.__version__)
```
